Washington, D. C., Feb. 23.—Decision regarding an extra session of the sixtysixth congress may be reached this week. With sine die adjournment at noon, March 4, and with more legislahope of avoiding an extra session. The only question, it was said, by some members today is the time when it will be called by the president.

President Wilson will be advised soon after his return regarding the extra session. ANOTHER REPORT ON BREST CAMP T TABHINGTON, D. C., Feb. 23.

The war department tonight made public another report from Gen. Pershing denying that unsanitary and unhealthful conditions exist in the American
embarkation camp at Brest, France. The commander in chief, replying to a cablegram of protest sent by a New York newspaper to President Wilson and forwarded to him by the president summarized a report which he had received from Maj. Gen. Eli A. Helmick inspector general's department of the expeditionary forces, commanding at Brest, who declared the charge that soldiers from the front and nurses were confined in quarters was "abso

Anti-League of Nations, Society to Be Formed

New York, Feb. 23.—[Special.]—An organization of individuals and societies to oppose the ratification of the league of nations, as proposed by President Wilson at the peace conference, is being formed in this city, according to Henry A. Wise Wood. Its list of members and statement of aims, he said, probably would be announced after the president had explained the constitu-tion of the league to the congressional committee on foreign relations at the White House. This was the concluding sentence of cablegram sent by Gen. Pershing to the war department on Oct. 13, 1918, in protest against the continued deficiency of army equipment which he no longer was able to make up even in part by borrowing from the French and British.

The cablegram is the second pro duced by Senator Reed of Missouri, tial messages of Gen. Pershing, the created a sensation in the war department.

twenty-four persons, all reds or bolsheviki, arrived in the neighborhood
of Vevy. Among them, it is alleged,
were Rossiere, Zahmid, and Bunzil.

At the same time a group of reds
met in Zurich to organize a plot against
the French premier and other allied
statesmen in Paris. In this group, it
is alleged, was Misiani, director of a
radical newspaper, who went often to
Geneva to confer with the reds there.

A few days ago Misiani was arrested
in the offices of the Red Flag, the Spartacan organ in Berlin. It is said he
was especially charged with smuggling
revolutionary propaganda into France
by way of Switzerland.

"I think—and I believe this is my
father's opinion"—she continued, "that
women should prove a very good stabilining influence in the momentous upheavel through which we are passing
in the attempted organization of a new
order. Personally, I am much interested in their efforts and hope to take

Millions of cards are used annually by the United States Government. Business houses, banks and insurance companies use cards for perhaps two-thirds of their records.

The development of the card system is but one chapter in the history of the world's largest manufacturer of card record and filing equipment. Back of it all is an IDRA—perfection in card and filing methods. In addition to the card system, L. B. also originated vertical

filing, the card record desk, and the L. B. Automatic index:the quickest, most accurate and most practical system of filing and un-filing the business world has ever known. For forty-three years Library Bureau has been constantly

meeting every imaginable card and filing problem, from a simple card index to the handling of correspondence aggregating millions of letters a year. This experience has always been valuable to L. B. customers; it is especially valuable in these days of business reconstruction.

WOMEN'S VOTE PAINFUL PUZZLE: THREE CLAIM I

THE CHICAGO DAILY TRIBUNE: MONDAY, FEBRUARY 24, 1919.

Candidates Lack Precedent on Which to Base Conclusions.

That question was bothering the po litical leaders of all factions last night 'I fear the vote from the colore as well as the several mayoralty as wards.' My reply was that if Thomp pirants as they closed the main tents and left only a few sideshows to wind up the primary circus.

Will the women vote generally as a unit? Will they exercise independence of thought and conviction? Will they e sentimental or will they be "prac tical "? Will their vote merely double the usual male vote of the old days

tor in the big scrap tomorrow? asked by the campaign managers as they closed their desks after the hard nated, despite Capt. Merriam's candisunday grind and tried to extract some little encouragement out of the maze of condicting reports.

236,102 Women Registered.

On the registration books are the names of 236,102 women who are entitled to express their choice tomorrow, the majority of whom will vote in the Republican primary.

These figures assumed new significance with the registration of the registratio cance yesterday, the managers agreed, and the last big day of the home

and the last big day of the home-stretch drive was devoted by the Re-publican candidates largely to an ap-peal to this "unknown quantity." The women's ballots will be kept in separate boxes and tabulated separate ly so that the returns will show exact the campaign, particularly the city nistration of the last four years Olson Appeals to Women.

Judge Olson, in an appeal to the women yesterday, laid emphasis on the "The whole question for the Republis to vote for Judge Olson if you desire can voter who desires an able, honest, to defeat Thompson."

He argued that either he or Thompson monia last week caused 131 feaths, as son would be nominated, without re-

gard to how the women viewed Capt.
Merriam's qualifications. The situation was such, he told them, that he
would receive a much larger vote than
Merriam from the men and he added
he would be nominated. But if by any
fluke Thompson should be nominated
it would be because well meaning wom-

ed had cast their votes for the weaker of the two anti-Thompson candidates in the Republican primary.

Mrs. Olson, wife of the candidate, accompanied her husband to all the meetings yesterday and talked "practical sense" to her women listeners.

Mrs. Olson's Argument. Mrs. Olson addressed a meeting of about 1,000 women in Roma hall, Harrison and Polk streets, in the afternoon. She said she had no criticism to offer her sisters who were favorable to Capt. Merriam's candidacy, except that she was quite sure the votes they gave to the captain would make it less was to end.

"A Merriam woman said to m son should get through the blame is my opinion will not rest on the colore wards, but rather on the women are following Mr. Merriam."

are following Mr. Merriam."

Pledged for Olson.

Mrs. Blacklidge, directing the women's organization of the Olson campaign, announced at night that she had on her list the names of 7,000 women who have been working hard for Olson and against Thompson throughout the campaign.

Judge Olson, after his night meeting, discussed the women voters.

"I believe I am going to be nominated, despite Capt. Merriam's candi-

than Capt. Merriam will."

Merriam Disagrees.

Capt. Merriam disagreed with these forecasts. He said that it was in par-ticular the women vote that made his

beginning.

The Michigan state Republican convention adopt ed resolutions "viewing with alarm" the league of nations. The Chicago Daily News says that this convention must have been controlled by reaction-

Michigan Republicans may have used considerable political rhetoric. A state convention platform usually endeavors to cut a wide swath through the dictionary. But the germ of thought in the Michigan state Republican platform was sound, and if there is a moral criticism of it revalent in the United States then there is a rotten spot in the core of American national spirituality.

If it be bourbonic to be intensely American then this newspaper is the all-firedest bourbon sheet in the world. Here is a new nation. It has been taking in the elements of other nations. It has been trying to make a new type out of these elements It has been trying to create a new nationality.

It has taken its people from all peoples and its language from the English. To all these peoples human emotions. If there is advantage in some it has given new conceptions of the highest human ideality and of the greatest working practicality. As a nation it is worth the world's while that the exists. For the nation as it does exist it is worth everything the nation possesses to make the nation

This United States of America has aided human progress in the world because it has been an organized, nationalistic, going, and growing concern. The old American with his ideas and ideals sent his ideas and ideals east and today Europe is re-

The old American has seen his big cities receive millions of foreign born and he has helped to make them Americans. He has seen colonies of foreign born upon many square miles of cities and in many quare miles of rural territory. He has seen the digestive machinery of his nation overtaxed but, nevertheless, successful in a stupendous under-

But our nationality is skin deep upon the body of history. The spirit of '75, which is our first national consciousness, touches less than 150 years ago. The French have Joan of Arc. The English have the battlefield of Hastings. They have Westminster abbey. They have their long period of national consciousness, their traditions, their history,

English and French sense of national being runs own a great long corridor. It animates every Frenchman and every Englishman as something which comes spiritually out of a profundity. Amer ican national sense does not have this deep roo growth. We need nationalizing.

We believe that nationality is a sacrament; that it is important in human life; that it is a spirituality which men and women cannot do without. We know that nationality can be abused. We know that it can be distorted into what we have come to recognize as junkerism. We know that it can grow unlovely flowers and unpalatable fruit. But it also can grow the most beautiful flowers and the best fruit which human beings have.

The United States, it happens, at this time needs the stimulation of nationalizing influences, and when people try to bury this nation under a smean of internationalism they try to hurt the very core of life in the United States.

Rather than have American life as American life, distinctive, peculiar, beautiful American life, hurt by a dispersion of thought and a weakening of national impulses we as Americans would see the whole league of nations in hades.

We have always been willing to help other nations to freedom and to sustain them in freedom. We always have been willing to give the world the squarest deal which one nation can give the other nations. But above all the nations of the world this is, for the purposes of an American, the

We think a real wrong will be visited upon great majority of the people if their extra hour of daylight in the evening is taken from them. All people like to leave their work while it is yet broad day, so they may have a margin of sunlight before retiring directly to their homes.

The average person works from darkness to dark ness during the winter months, wherefore it is desirable to enjoy the summer to the fullest. Surely no good can come of repealing the daylight saving

OLSON FOR MAYOR.

THE TRIBUNE is for Olson because we believe that as between Olson and Merriam, opponents of Thompson, Olson has the best chance to win. It is none too good. Thompson is powerful politically. He is bad, we think, for Chicago, but he seems good to a large number of Chicago voters. The straw votes, which have been taken at haphasard. indicate that he runs shead.

If he had one opponent he might be beaten. We think for the good of the city that he ought to be beaten. Judge Olson, we think, can do it if any one can in the primaries. If we thought Merriam were the stronger candidate we'd be for Merriam. As the matter stands, in our best judgment, a vote given to Olson is a vote best used for the defeat of Thompson.

A LESSON IN FORBEARANCE.

Sudden transitions in the central European states have resulted in violent sporadic demonstra tions. The murderous outcropping in Bavaria defeated spirit of kaiserism raging impotently against swift political change.

Peoples cannot be accustomed overnight to volcanic transformations without the phenomena of individual resentment. The old order passes best when it passes slowly. The national digestive apparatus is not suited to whole chunks of unmasticated reform. Emotionalism sweeps the mass but not without the occasional pop of a pistol to emphasize the protests of the old regime.

Society lives; it is too bad that some individuals ere trampled underfoot. A hundred years from now it won't make any difference. If Eisner meant anything to the new order as he lived he means just as much dead. He could not live forever nor any of those who have fallen by the assas sin's weapon.

For the present we can take a lesson from the dolence of transition in the old states. Americans must bear with each other, having kindly consideration for all and refraining from inflicting intolerable political changes without due regard for movement it must not be pressed beyond the point of common acceptance. Forbearance is a double virtue, operating alike to the benefit of reformer and reformed. The one may insist to a reasonable and just degree and the other will accept it in reasonable and just degree.

Let us strive for reasonableness and justice and not the emotionalism that overwhelms.

CHICAGO DOUBLY DRY?

With the country going dry regardless, the ruling of the Illinois Supreme court ordering a vote on the Chicago local question reminds us of the naive gentleman in Mother Goose: There was a man in our town and he was

wondrous wise: 9 He jumped into a bramble bush and scratched

out both his eyes.

his might and main

He jumped into the bramble bush and scratched them in again. Only Chicago is not going to scratch them in

again. It may expedite the dry movement, but not delay the inevitable farewell to liquor, so that in the abstract the vote means little or nothing. Under other circumstances the ruling of the court might be interesting, but its present application can have no other effect than of permitting acquaintances who view with alarm the immediate an expression of public opinion on a subject already decided for good and all.

If the drys should win they may take comfor out of the approval of their actions. If the wets should win we can only suggest that they "see what they can get on it," Hope springs eternal; also thirst. A dying man will give his estate for two months of life. WAR AND SOCIALISM.

[Saturday Evening Post.] One outstanding thing about the war was a tre

mendous extension of government intervention in affairs formerly left to private arrangement and direct tion. Pretty much everything was "taken over" or regulated from Washington in some degree or other. But the wayside flowers bloom fair and sweet, It has been generally assumed that war experience would have a permanent effect in the way of much greater government control of business. But we should not be surprised if it had precisely the opposite effect-in the United States and England, at least certainly were excused on the ground of inevitable haste. An expert investigation, here or elsewhere, undertaken with no political animus and solely ile science, would probably raise the interest of econom at least a grave doubt whether we should not have got on faster and cheaper if government had restricted its intervention in various directions,

OR TRUCK CAN HELP YOU

Right and Wrong Ways to Operate a Truck

THE CHICAGO DAILY TRIBUNE: MONDAY. FEBRUARY 24, 1919.

Merely keeping a truck out of the repair man's hands does not necessarily mean that you are running it right. Simple methods there are by the hundreds for trimming down costs, increasing mileage, and raising every phase of a truck's efficiency. Exactly what these methods are and how you can use them in your business is here specifically told.

"TTTHAT!" snapped Preston, screwing VV his face into an expression of utter disbelief, "you don't mean to tell me it costs you that much to deliver a package. Why, we deliver in the same radius for one-third less than it costs you. And on top of that we deliver almost twice the number of packages in the same time."

It all happened in Morton's office. A friend

of his dropped in for a visit. They got to talking about motor truck deliveries. Morton prided himself on his low cost and speed of delivery. And he had a right to be proud of it, for he had made big savings in his firm's former best record.

Then along came his friend Preston. They compared notes, figures, experiences. And at the end of it all Morton, experienced

though he was, admitted that he had a lot to learn.

That was last September. Preston's ideas on handling motor trucks were put into immediate operation. And the result? This-Morton has since cut his delivery costs by one-third, and more than doubled his number of deliveries per truck per day. And this without increasing expenses by a single penny.

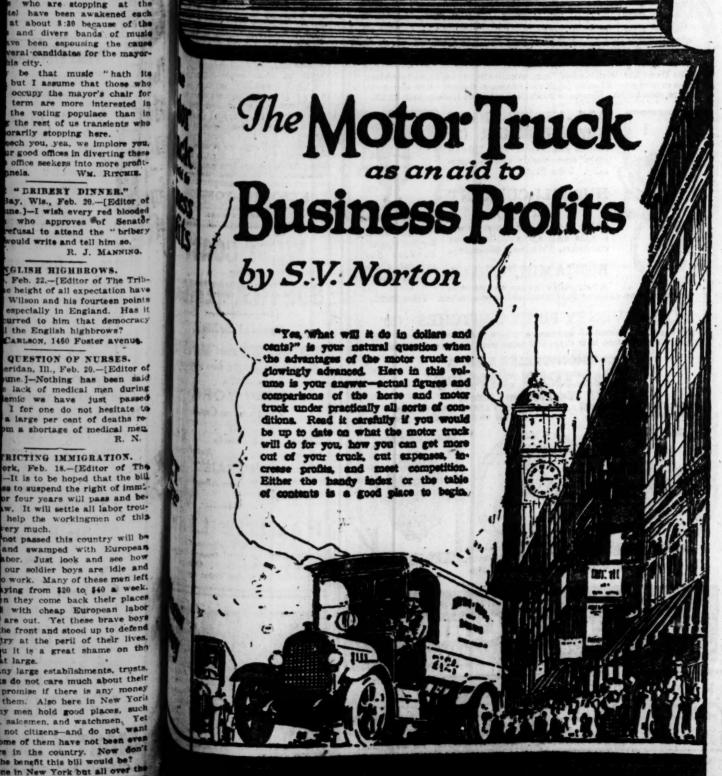

Figure 152, Page 206-This side dump body, resting in balance, can be unlocked and dumped with ease by one man. Only a slight pull is required to turn it over.

Thousands of Users **Experiences** of business houses throughout the coun-

THIS experience is typical with motor trucks. Many a man who is already satisfied with the performance of his trucks has only scratched the surface of their efficiency. He could, if he only knew how, greatly improve his present efficiency record. Costs that he already considers low could be trimmed down. Delivery time could be shortened. Radius of delivery could be increased. And a hundred and one other advantages could be gained-all without increasing expenses by a single

It's safe to say that ninety out of every hundred motor-truck users could do this. That they are not already doing it is no reflection on them. The motor truck is comparatively new. Hit or miss methods were inevitable at the start. Every new idea or product has to go through this stage. The motor truck was no exception. There was no record of experience to guide users. Each had to find out for himself what to do and what not to do.

No one man, no matter how capable, can "know it all." The result is that, in the absence of experience records, many a truck user is not getting anything like the efficiency out of his trucks which

they are capable of giving. He may already be satisfied with their performance, yes! But they'll produce much bigger results—and give still greater satisfaction—if only they are operated in the right way.

But what is the right way? That used to be a poser. What was right for one man was wrong for another. But now this question, which has always perplexed truck owners, has definitely and conclusively been answered. For a personal man-to-man investigation has been made, and the experiences of each checked one against the other, proved and verified, and put down on

Here is the way it all came abouts Each month hundreds of requests came to SYSTEM, The Magazine of Business, for definite information on all phases of truck operation. These requests grew in volume, which indicated a widespread need for definite data on motor trucks. So SYSTEM sent skilled investigators throughout the country to look into motor truck conditions at first hand.

By reason of the field it covers, its highly specialized organization, and its intimate connections with thousands of

sume charge of the investigation and to set down in convenient reference form the best of the proved methods of operating trucks at lowest costs. Capt. B. B. Lipsner, U. S. R., another recognized expert, also collaborated. Thousands of users, in every conceivable line of business the country over, were called upon. Motor truck manufacturers, truck users, tire manufacturers, automobile clubs and associations, and governmental departments enthusiastically co-operated in this work of collecting definite data. They

realized the great value it would be to

them individually as well as to the en-

try, SYSTEM was especially qualified

to perform this great work. The inter-

est in these time-and-money-saving methods which it collected proved so great that SYSTEM now decided to

issue a complete work which would be

a standard guide to every one in the

motor truck industry, truck owners and prospects for trucks. SYSTEM'S

editorial staff was fortunate to secure

the enthusiastic co-operation of Mr. S. V. Norton, whose unusually wide

range of experience qualified him to as-

LIFE ASSURANCE SOCIETY OF THE U. S. 120 BROADWAY, NEW YORK

Of all the Equitable's sixty years of public service, 1918 was by far the most important and successful.

During that year the greatest epidemic in America's history carried off over 400,000 people, most of them in the young and healthful period of life.

Of the \$27,799,026 distributed in death claims by the Equitable in 1918, to the beneficiaries under its policies, \$5,200,000 was directly due to the epidemic of Influenza and Pneumonia, emphasizing the urgent need of life insurance and of securing it at an early age.

In 1918 the Equitable distributed to its policyholders in Death Claims, Endowments, Dividends and other benefits, \$65,412,490. It also promptly met all the obligations imposed by the Government during the great war. Liberty Bonds to the amount of \$54,000,000 were purchased during 1918. To do this it was necessary for the Society to borrow \$23,000,000.

The following figures are from the Society's 59th Annual Statement, which will be furnished on request:

OUTSTANDING INSURANCE, Dec. 31, 1918. \$1,924,538,578 Increase over 1917, \$169,669,670

NEW INSURANCE IN 1918..... Increase over 1917, \$21,878,907

INSURANCE RESERVE\$483,817,197 Balance due Banks, Liberty Bond a/c. 21,000,000 Other Liabilities 18,085,970 \$522,903,167

SURPLUS RESERVES: For distribution to Policyholders, 1919. \$18,016,362

Awaiting apportionment on deferred

dividend policies 57,967,578

ASSETS, December 31, 1918.....

Through GROUP INSURANCE the Equitable, in 1918, increased the protection furnished by employers to their employes to the extent of \$80,000,000. The value of this protection was strikingly illustrated during the epidemic.

There was a marked gain in policies giving beneficiaries Monthly Incomes for life, as well as in Business Insurance, and in policies to cover Inheritance Taxes.

There was also a large increase in life policies providing for (1) waiver of premiums if totally disabled, (2) continuous income during total disability, and (3) double payment in case of accidental death.

HARACTERIZED by a series of salesevents whose superiority has contributed in full measure to the splendid traditions this store—February is drawing to a close. In the few days remaining there will be noted the same high standard of value-giving that has prevailed from the first. And our patrons may continue to avail themselves of the

Frocks Follow Suit Lines Even Unto the Adoption of Vests

They make of themselves the smartest sort of modes for street wear with furs or fur coatees.

Indeed, from the moment of their presentation their favor has been instantaneous and their vogue sustained. And one may choose these very moderately priced.

Women's Suit Frocks of Poiret Twill, \$50

They are in navy blue or beaver with vests of Pekin blue tricolette and braid bandings. The back is unusual, cut in wide folds and in one with the pockets at the front. Sketched at the right.

Misses' Suit Frocks of Tricotine at \$50

They are delightfully youthful in line, with little "box" coatees jauntily fashioned. Tricolette forms the vestee, which is embroidered in black and gold. Sketched at the left.

Some Particularly Interesting Afternoon Frocks-

One mode developed in taffeta, with frillings upstanding on a tiered skirt, is \$47.50. Another of Georgette crepe, with "shark's teeth" of taffeta forming a banding, is \$62.50.

Fourth Floor, North and South.

The February Silk Sale Enters Its Final Week

From the very beginning it has been the great success of the season. For every offering that has been made has concerned silks not only of superior quality, but those silks in the weaves most desired for spring.

Note These Silks and Their Prices: All-silk Faille Francaise, \$2.25, And Silk and Wool Poplin, \$2.25 Yard

The faille française is of an excellent quality in a wide range of colors; in the 36-inch width, \$2.25 yard. The silk and wool poplin is 40 inches wide, of a rich and durable quality, and in the colors greatly desired this new season. \$2.25 yard.

Printed crepe de Chine, in both dark and light colorings and in the 40-inch width, is \$3 the yard. Fine all-silk plain Georgette crepe, 40 inches wide and in both dark and light sliedes, is \$1.85 yard.

Black Silks, \$1.95, \$2,25, \$2.45 Yard

Two splendid qualities of black chiffon taffetas, in demand for frocks and skirts, 35-inch width, priced specially \$1.95 and \$2.25 yard.

Black satin mousseline with a high lustrous finish a dependable quality—36-inch width, \$2.45 yard. Second Floor, North.

Concerning Certain Special Values in the February Silk Petticoat Sale

First-a word in general about this event.

The success forecasted for it-a prediction based very securely upon the splendid quality of the silk petticoats at a range of remarkably low prices -is an accomplished fact. And it is emphasized once again by the groups particularly featured here.

Satin Petticoats at \$5 The New "Pettibockers" of Satin at \$5.95

The petticoats are fashioned on the straight lines of spring mode. Note the close lines of the finely pleated flounce in the sketch at the right. The same style in silk Jersey also at \$5.

The satin "pettibockers" with the convenient bloomer features, especially desirable for wear with the tighter skirts, sketched at the left, \$5.95. These "pettibockers" in a soft silk of excellent quality are priced at \$5.

The colorings are very attractive, including old blue, emerald, navy blue and black. Third Floor, North.

The Fashion Message in Suits Daily Tells of the New and Different

Fashion moves swiftly these days.

Perhaps it's a subtle change in line or an uncommon interpretation of an accepted detail, or an individual touch in trimming that is introduced, and the new and different in springtime mode is evolved.

Women May Choose These Suits Here Typical of the Newer Trendat \$42.50 and \$75

At \$62.50 there is the serge suit sketched at the left. The back introduces an entirely new line by means of stitch-

ing and braiding. The front has cleverly placed pockets. At \$75 there is the suit of tricotine suggesting ever so slightly the box-coat outline, but adding a Tuxedo collar instead of the usual Eton collar. To be had in blue and claycolor. Sketched at the right.

These individualistic features are present not only in suits of the regular sizes, but also in those so called "extra"—"381/2" to "501/2". Fourth Floor, North.

The Silken Negligees of Spring Lightsome and Colorful and Charming

Here are the first of the spring negligees.

Simple in line, radiantly lovely in color, and entirely different in detail, they are the most charming of at home garments.

One of Two-Toned Taffeta, the Other of Crepe de Chine, Either Unusual at \$10.75

The two-tone taffeta is fashioned in the conventional lines of the breakfast coat. It shades from one color to another; for example, from old blue to cardinal, blue to green, black to purple, or

flashes into vivid rose tints. Sketched at the right. The crepe de Chine negligee has a quaintly appealing charm given, perhaps, by its silken lace rufflings at the neck, sleeves and pockets, and delicate two-toned ribbons. In pink, blue or orchid. Sketched at the left.

Third Floor, North.

Wool Fabrics Much Wanted For the Making of Spring Apparel

The wool fabric section just now is proving a fund of great importance to women intent upon spring dressmaking plans. Particularly good values are offered in the fabrics most sought. For example:

All-wool Jersey Cloth, \$4 Yard

Splendid for one-piece frocks and sports apparel. In Pekin blue, mallard, Victory blue, sand, mode, navy blue, old rose, gray, black. 54 inches wide.

Smart Wool Plaids, \$4.50 to \$6.50 Yard In the rich dark combinations desired for the making of separate skirts, frocks and outdoor pastime apparel. 54 inches wide. Priced \$4.50 to \$6.50 the yard.

Fine All-wool Twilled Serge, \$2.75 Yard In many colorings, as well as navy blue and black. A fine firm weave certain to be appreciated. 50-inch width.

All-wool Challis, Unusual at 75c Yard An extensive assortment of these fine challis is offered at this remarkable price. The patterns make these challis desirable for house dresses, street frocks and children's frocks. Second Floor, North.

The February Shoe Sale Less Than a Week Remains

If you have already profited through this sale, there is yet time to take additional advantage. If you are a belated buyer, excellent opportunity still remains for you.

For this sale was so thoroughly well planned that it approaches the end with values as worth while as at any time during its progress.

Thousands of Pairs of Women's Boots Reduced—\$3.95, \$4.85, \$6.95 to \$12.95 Pair

Again the Directoire Inspiration in Millinery for Formal Occasions

But it is a Directoire infused with the triumphant spirit of the day, which lends a more temperamental tilt to the brim and a brilliant gleam to the garniture of these charming hats.

Black Tulle, Jetted Bands, Filmy Feathers

These are the mediums with which the mode is interpreted. But the artistry and originality of design that individualizes them can only be appreciated by seeing these hats.

A New Spring Sailor—The Garden But Very Far From Common Variety

The "vegetable sailor" some one has termed it, and it gets this name from a fantastic garland of garden vegetables realistically tinted, and set close to the crown. A delightful shade of Du Barry rose Georgette crepe is used as facing.

Many more equally distinctive modes are introduced now in the French Room. Fifth Floor, South.

Last Days of the February Sale of Dinnerware and Stemware

The exceptional values brought by the close of the February Sale should prove especially interesting.

Let's Abolish Pants

Not the word, but the thing.

That's what Irvin S. Cobb advocates' in The American Magazine for March.

He says several million young men have learned that knee breeches are the ideal clothes for man.

He insists that they won't go back to long trousers with a crease down the front, without a protest.

And if they protest enough—who knows?

New styles for men, perhaps!

Here's a real worth-while suggestion, serious in spite of its humor, to which every man will say O. K.

EXTRAORDINARY FEATURE

Gen. Pershing's Own Map Of The Great Argonne Battle

This splendid Map, in colors, was sent to THE LITERARY DIGEST by General Pershing, and occupies two full pages in the February 22d number. It is accompanied by a thrilling article drawn from the American Commander-in-Chief's own report of the battle, which was sent with the map. In this tremendous fight in the Argonne forest 600,000 American doughboys faced the crack divisions of the German Army and put them to rout, capturing 468 guns and 16,059 prisoners. Never before was an American Army engaged in such a great battle, and never before in any battle did any army face such almost insurmountable obstacles.

This unusual Map made by the army cartographers at headquarters in France during the progress of the great push will be invaluable for preservation. The position of every Division engaged on every day of the advance, and in some cases the morning and afternoon positions on the same day are clearly shown; the heavy German defense systems that were broken are clearly indicated, showing the irresistible impact of the American push. Every River, Railroad, Wagon-road, City, and Town in the Meuse-Argonne region is plainly given.

In a million American homes this number of "The Digest" containing the splendid Argonne Battle Map will be read with intense interest. Every returned soldier who fought in this great offensive and every relative of a hero in this great drive will be particularly eager to have "The Digest" this week. As no extra copies will be printed, we advise you to go to the news-stand NOW and get yours before they are all sold.

Men in this class are naturally critical, yet our records show that these, above all classes of buyers, are the readiest to recognize Amberg

Why? Simply because they find in the Amberg plan that factor of service which no other plan possesses; namely, a knowledge of where to use and how to combine the basic principles of filing and finding to fit each individual case.

The further success of the Amberg plan is based upon its simplicity and its unusual flexibility, best demonstrated by the ease with which the indexing is adjusted to any business without interfering in the least with the customary routine. It co-ordinates-does not revolutionize.

Make Yourself the Man Wanted

The opportunity is here for expert accountants. The war over. An immense program of reconstruction is to be carried out. Haphazard, hit or miss methods must give way to exactness, efficiency and the skilled handling of problems—both old and new. That all means a greater demand than ever before for the man trained in modern accounting—the man who is a keen analyst—who can map the conditions of a business—think—plan.

Become An Expert

who can tell what the real income of the business is and how to put et nomical policies into operation. Every business must have this information if it is to meet the close competition of today and make correct reports to government. The man who can do all this and who can put efficient organistion into the office or factory is the man wanted now. He is the man whom important, executive responsibilities will be given.

DEATH OF NUN BY CONFESSIONS

HOPE TO SOLVE

Two Priests and Woman **Expected to Clear** Old Mystery.

Traverse City, Mich., Feb. 23.-[Special.]-The Catholic church will stand . back of the state officials and lend every possible assistance in clearing up the mystery of the death of Sister Superior Mary John of the Isadore convent, near here.

This assurance has been given to Judge Martin Brown of Leland, who is conducting the investigation, by Bishop's Administrator Lafebre of Cadillac, in charge of the diocese. The

Developments took an encouraging turn today, according to officers, when they located at Manistee, Father Andrew Bienowske, priest of the Isadore church at the time of the disappear ance of Sister Mary. They also be-lieve they have located Mrs. Sanislaw Lypchinski, housekeeper for Father Bienowske, who is supposed to know considerable regarding the disappearince of the nun

with these two under surveillance and Father Edward Podlesweski locat-ed at St. Bonaventura's monastery, De-troit, officials have every confidence

At the time of the disappearance of Sister Superior Mary John from the Isadore convent in August, 1907, Father Bienowske was in charge.

Many Quarrels Reported.

It is reported that the housekeeper had had altercations with the sister and was jealous of her, and that the housekeeper had physically assaulted the nun on more than one occasion. It is further reported by officers that they have been informed that Sister Mary, when last seen Aug. 22, 1907, was in the basement of the church at Isadore, with the housekeeper.

For fifteen days the vicinity was searched in an effort to find some trace of her. Bloodhounds were used, Father Blenowske lending every as-sistance to the hunt.

OLDUP, THEN

A feature of the investigation at that time was the fact that the remaining two nuns at the convent immediately left with the statement that "what happened to Sister Mary might happen to us." They have never since been

Harlem Housewife "PAID IN FULL." Produced by Paramount. Directed by Emile Chautard Presented at the Ziegfeld.

THE CAST. oksPauline Fred ... Robert Cain .. Frank Los

By Mae Tinée. Well, back the pendulum swings to Pauline Frederick! She's surely work-

ng hard these days! To my way of thinking Eugene Walter's play makes a splendid picture vehicle for Miss Frederick. It takes her away from her usual rather lurid screen environment, placing her in one more believable and endowed with just as much, if not more, interest. Miss Frederick wears beautiful clothes with an air, but as the little Harlem housewife in her gingham gown, making a home on \$20 per, she becomes a real human being.

Do you remember Mary Stewart Cut ting's "Little Stories of Married Life" "Paid in Full" convinces me that I should like to see Miss Frederick in such a series. Coming back to the picture in question:

You all know the story of Joe and Emma Brooks. Joe, the husband, is one of those speople who thinks the world is not giving him a square deal. He wants luxury, but not work. He labors after a fashion as bookkeeper in the shipping firm of which Capt. Williams, an old sea captain and friend of his wife's deceased father, is head.

application for a "raise" is.

That day opportunity comes to him to confiscate some money, which he does. His employer leaves for a three months' absence, and during this time sudden prosperity apparently descends on the Brookses. Emma is radiant, never doubting the story of the "raise" and "lucky spec-ulations." The Harlem flat gives way to a roomy apartment in a family hotel. The only person suspicious of the sudden change is Jimsy Smith, family friend, who has long, silently, and hopelessly loved Emma.

When Capt. Williams comes back he discovers the shortages in Brooks' accounts. He calls one evening, finding Brooks out and Emma and Jimsy For the first time he rather

"Overseas Revue" to Stay in Town: Theater Jottings

"The Overson Revue" is not after all, to be builthed from our midst when it completes its tenancy of the Princess at the end of this week. Being reluctant to go, inasmuch as Chicago seems to like the entertainment, Will Morrhess the seems to like the entertainment, Will Morrissey, the impressrio, has been soouting around for a local haven, and has found it in the Playhouse, which he has leased for an indefinite period. The show will move to Michigan avenue next Sunday and go right along. With Wallace Eddinger and Miss Ireme Bordoni in "Sleeping Partners," scheduled to arrive at the Princess or Sunday, arrangements had been made tertainers on an eastward course, with New York as a possible port of call. Morrissey, however, proven to be one of the few stage folk who prefer a Chi-dago cartainty to a Broadway possibil-ity, so the trip has been abandoned for the present.

Apropose of the plight of a New York reviewer who was haled into court the other day to defend an actor's suit for libel, Joseph Cawthorn, the comedian, propounds the following safety plan:

"I suggest that before reviewing a performance the critic have circulated among the company printed forms of

among the company printed forms of an agreement which, when signed by the players, shall bind them to refrain from claiming damages, either in mon-ey or in physical satisfaction, in the event that said critic adjudges the funevent that said critic adjudges the funny man to be sad, or the serious player to be laughable. He should put it on a sporting basis, the penalty of failure to sign the document being that the actor will not be mentioned at all. In other words, if the actor has confidence and will take a chance he will sign the agreement, and accept the consequences like a game man:

"With such agreements filed away in his pocket the critic may go the whole distance in expressing his opinion without fearing that his next day's breakfast will be interrupted by the visit of a process server."

visit of a process server."

P. S.—The actor lost his suit, so Mr.

The Barrymores, John and Lionel, are to appear together for a special engagement in April in Bonnelli's "La Ciena Della Beffa," Lionel's tour in "The Copperhead" to be interrupted for the purpose. The Bonnelli play is one of those produced by Mme. Bernhardt at her own theater in Paris, the actress playing the role which is now to be presented by John Barrymore.

NEW YORK SEES WAR TROUBLES IN MARKET PASSING

Steady Advance Gives Brighter Hope for Future.

The New York Times.

New York, Feb. 23 .- [Special.]-The last week may or may not have of the war forward-looking quality, but, at any rate, it was sufficiently nced to convince one that some of the troublesome uncertainties of the readjustment period had passed into history. Except for periods of profit-taking, the advance was fairly steady from day to day, and brought en-couragement to the market. Trading reached further out than in preceding

weeks of the year to stocks ordinarily the subject of light buying.

The market bore the earmarks of speculative operations whose intentions comprised more than a casual effort for rofits to be taken quickly after a mod-rate advance. That is, the caliber of shares, and scattered specialties, had the appearance of accumulation for a moverather than days.

Psychologie Influence.

In part the purchases probably reflected a psychologic influence, based on the fact that the market had drifted so long with-out a pronounced trend downward, despite substantial pressure from short sellers, that a forward swing might be extended as business and trade turned toward normal.

The major factors appeared, however, center in the feeling evident in banking and brokerage offices, that the future was less obscure than a month ago, while reports from manufacturing centers and from export sources showed some change

trade reports, for example, in-Steel trade reports, for example, in-dicated that buying for shipment out-side the country was slightly on the in-crease, with inquiries noteworthy in re-spect to the tonnages mentioned. Some sted that undue emphasis could umers was actually absorbing by far he greater portion of current produc-

forecast in advance, it appears that the form of the government's spring finan-cing has been shaped. It matters little a program for selling short term securi-ties has been decided. The Liberty bond market's moderately firm front last week reflected hope among investors that the new issue or issues would not compete directly with the existing bonds.

Bond dealers reported a market in-crease of buying from investors, institu-tions, and individuals, which did not decrease after Secretary of the Treasury Glass had corrected the erroneous impression held in many quarters that the banks wou'd be expected to take the

"So I am leaving in your hands the only thing that matters now -and God bless you."

THAT is part of a letter the Editor ■ of the Woman's Home Companion received from a reader. It is but one of four thousand letters very much like it.

(and more are coming daily) in imme-

diate response to an announcement in the February Companion of a service to families of soldiers who seek news of boys in France.

A second announcement and de-To be exact, 4,100 letters came scription of this remarkable service is in the March Companion.

Four thousand appealing letters

and sacred to quote here—pleading for information about four thousand big strapping American boys in France.

Stop and think that over for a moment. What sort of a magazine is this that brings such words from its readers as those quoted above? What must be the attitude toward this magazine that mothers and young wives and girl sweethearts will confide in it in this manner?

Confidence. That is it. A confidence that is bred of long and sincere service. When the Companion described this new service, its readers knew that the service would be rendered. And they responded - in numbers really remarkable, considering the

filled with heart breaking true stories too intimate limited list of American boys not heard from.

The Companion is proud of having more-thana-million readers—but it is far more proud of what created and holds those readers.

It is a worth-while feeling to have evidence that, in the hearts of these more than a million women, other magazines can not replace the Companion-any more than your host of acquaintances can replace your one real friend.

The Companion has the same confidence in its readers that its readers have in it.

That should mean something to you, too-that confidence which more than a million women readers place in the Woman's Home Companion. And that confidence which the Woman's Home Companion places in its readers.

In the March Issue of the Woman's Home Companion Roland Phillips

describes the search in France for soldiers, killed, wounded, sick, missing, or not heard from. This search is being carried on by the American Red Cross Bureau of Communication of which

Mr. Phillips, the Companion's contributor, is a member.
